**Career Objective:**

An engineering manager engaged in the energy sector with extensive experience in the diversified field of LPG process plant, cylinder manufacturing plants, edible oil refinery plant, tank terminals. possessing diverse background of operation, maintenance and project management, capable to manage overall process plant, contractor management, vendor evaluation, supply chain management, d-bottlenecking and maximizing productivity, optimizing cost with asset integrity, workplace safety and reliability. consistent track record of completing projects within schedule & budget and improving the profitability of assigned projects.

**Core Competency:**

- ☐ Intensive knowledge of LPG cylinder manufacturing and bottling plant operation & maintenance.
- ☐ Managing inventory of spare parts, raw materials for uninterrupted operation and maintenance.
- ☐ Deep knowledge of green field & brown field project construction.
- ☐ Project details engineering design & drawing review.
- ☐ Construction planning & scheduling.
- ☐ Project budgeting & resource planning.
- ☐ Project progress monitoring & reporting.
- ☐ Site management and materials management.
- ☐ Contactor and supplier management.
- ☐ Project BOQ & MTO for procurement.
- ☐ Autocad , MS word, excel, PowerPoint.
- ☐ stay up to date with latest production management best practices and concepts.

## Employment History (12 years):

1. **Delta LPG Limited**, Mongla, Bagerhat (LPG Storage & Bottling Plant) storage facility 8000 m<sup>3</sup> (LPG spherical tank 4000 m<sup>3</sup> x 02 unit) & filling capacity 1400pcs/hour as Head of plant & operation period: 2016-current & my major role is

- Manage overall plant operation.
- Plan, organize, direct the operation and maintenance team to run optimum day-to-day operations of LPG process plant at the optimize productivity level ensuring safety & reliability.
- Implement best industry practices to keep optimum production, upgrade assets capacity and flexibility while minimizing unnecessary costs and maintaining standard at each process of unloading, bottling and delivering LPG up to customers through distribution.
- Share a trusting relationship with workgroup and recruit, manage and develop plant staff.
- Collect and analyze data to find places of waste or overtime.
- Commit and reinforce all LPG plant safety procedures among the operation team.
- Develop systems and processes that track and optimize productivity and standards, metrics and performance targets to ensure effective return on assets.
- Manage Mother vessel, lighter vessel loading & unloading operation.
- Incident investigation.
- Handling of Customer Complain form & Trigger Corrective action.
- Supervision of Civil, Mechanical & Electrical Construction works.
- Project progress reporting to the top management.
- Conduct meeting with national and international contractor.
- Pre-Shipments Inspection at Seller Factory.

2. **Delta LPG Limited**, Sayeedpur Narayanganj (LPG Storage & Bottling Plant) Storage facility 4000 m<sup>3</sup> (Mounded Bullet Tank 2000 m<sup>3</sup> x 02 unit ) & Filling Capacity 1400pcs/Hour as Plant In charge Period: 2018-Current & My Major role is

- Manage overall plant operation.
- Plan, organize, direct the operation and maintenance team to run optimum day-to-day operations of LPG process plant at the optimize productivity level ensuring safety & reliability.
- Implement best industry practices to keep optimum production, upgrade assets capacity and flexibility while minimizing unnecessary costs and maintaining standard at each process of unloading, bottling and delivering LPG up to customers through distribution.
- Share a trusting relationship with workgroup and recruit, manage and develop plant staff.
- Collect and analyze data to find places of waste or overtime.

- Commit and reinforce all LPG plant safety procedures among the operation team.
- Develop systems and processes that track and optimize productivity and standards, metrics and performance targets to ensure effective return on assets.
- Manage Mother vessel, lighter vessel loading & unloading operation.
- Incident investigation.
- Handling of Customer Complain form & Trigger Corrective action.
- Supervision of Civil, Mechanical & Electrical Construction works.
- Project progress reporting to the top management.
- Conduct meeting with national and international contractor.
- Pre-Shipments Inspection at Seller Factory.

**3.Delta Lpg Limited**, Tengramari,Rampal,Bagerhat (LPG Cylinder Manufacturing Plant) Capacity 12kg /15 Kg Lpg Cylinder 2000 Pcs/ Per 12 hour & 33 kg/ 45 Kg Lpg Cylinder 600 Pcs/Per 12 hour as Head of Plant & Operation Period: 2018-Current & My Major role is

- Responsible for cylinder manufacturing plant operation, maintenance & quality control activity.
- Assist production and maintenance team to achieve the targets.
- Responsible for leading and supervising a team of engineers as the develop, test modify and create solutions to be technical problem.
- Ensure maximum operational efficiency of the machineries.
- Ensure safety of workforce and machinery of the plant.
- Emergency material purchase support, collect offer and purchase from local market and coordinate with SCM.
- Establish and maintain relationship with international vendor/contractor for raw materials, spare parts.
- Ensure the LPG cylinder manufacturing standard DOT 4BA & DOT 4BW & ISO 4706:2008.
- Assist Compliance team for ISO 9001:2015 mandatory documents.
- Close liaise with respective customer for new order to handed over.
- Handling of customer complain form & trigger corrective action.
- Prepare monthly raw materials requirements & submit to SCM for procurements.
- Assist finance team to provide actual consumption of raw materials to find the actual cost of goods.
- Imported & local raw materials quality inspection at factory site as per supplier MTC & factory approved specification.
- Incident investigation

- yearly load test of lifting equipment's & calibration of pressure indicator, temperature indicator.
- Supervision of Civil, Mechanical & Electrical Construction works.

**4. Rupsha Edible Oil Refinery Limited**, Mongla,Bagerhat (Edible Oil Refinery Process Plant for Soybean, Palm Oil & Super Oil ) Capacity 600 TPD as Project Engineer Period: 2014-2016 & My Major role was

- Review of details engineering design & process design basis.
- Develop construction planning & scheduling.
- Review total BOQ & MTO for procurement.
- Supervision of Civil, Mechanical & Electrical Construction works.
- Ensure project OE, HSE safety for workforce.
- Project progress reporting to the top management.
- Conduct meeting with national and international contractor.
- Cross Country Pipe Line installation & Commissioning.
- Ensure QA/QC & project handover

**5. Rupsha Tank Terminals & Refinery Limited (Tank Terminal Storage Capacity: 40000 MT)** as Project Engineer Period: 2012-2014 & My Major role is

- Review of details engineering design & process design basis.
- Develop construction planning & scheduling.
- Review total BOQ & MTO for procurement.
- Supervision of Civil, Mechanical & Electrical Construction works.
- Ensure project OE, HSE safety for workforce.
- Project progress reporting to the top management.
- Conduct meeting with national and international contractor.
- Piping, Heating, Insulation works.
- Storage Tank Physical Calibration works.
- Ensure QA/QC & project handover.

### **Accomplishments in the Professional Career:**

- Successfully completed 05 no's above project construction jobs.
- Completed 10 no's mini-Lpg cylinder filling station around the country.
- Modern jetty construction works with loading & unloading facility.

- Save company cost around 1 million usd in 2020 during pandemic by installation & commissioning of cylinder manufacturing plant through local team.
- Optimized production cost of product.
- Initiated safety awareness for workers.
- optimized plant production capacity.
- Sop preparation for plant & Machinery.

#### **Educational Background:**

| <b>Exam Title</b>                                            | <b>Subject/Course</b>    | <b>Institute</b>               | <b>Passing Year</b> |
|--------------------------------------------------------------|--------------------------|--------------------------------|---------------------|
| Masters of Science in Engineering                            | Information systems      | Pacific States University      | <b>In Progress</b>  |
| Bachelor of Science in Electrical and Electronic Engineering | Electrical & Electronics | North western University       | <b>2024</b>         |
| Diploma in Mechanical Engineering                            | Mechanical               | Khulna Polytechnic Institute   | <b>2011</b>         |
| Secondary school Certificate                                 | Commerce                 | Mongla Bandar Secondary school | <b>2007</b>         |
